- As individuals, how can we avoid believing and spreading fake news on social media?

FAKE

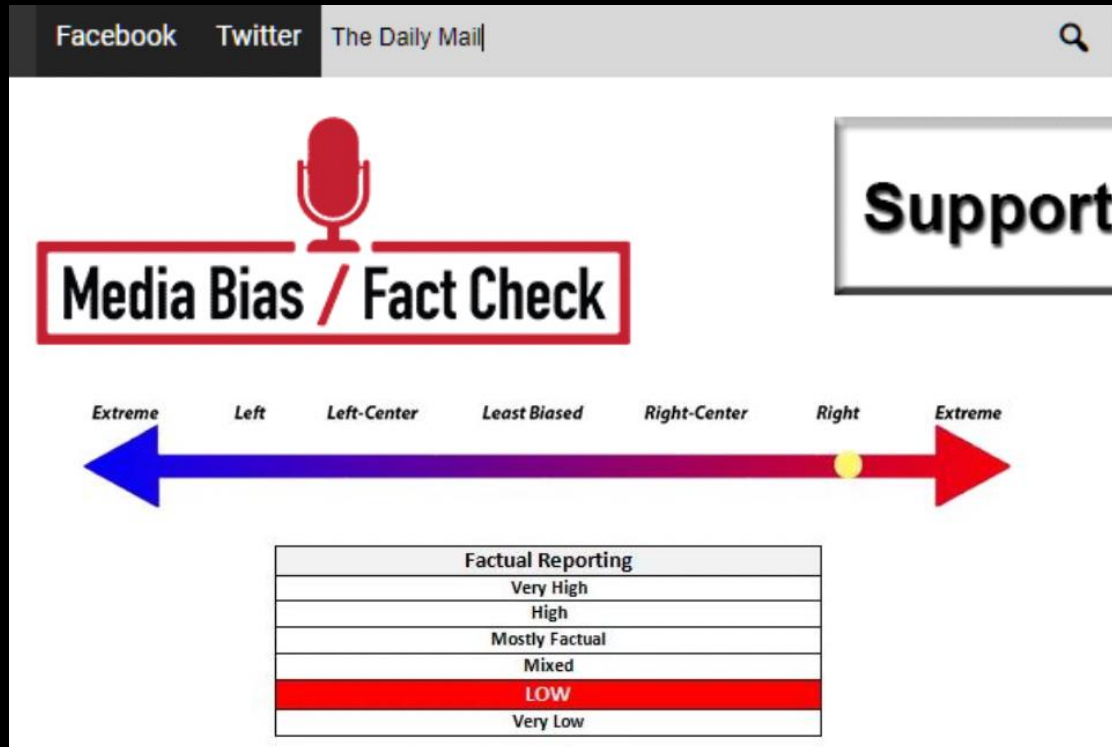

To judge the quality of information——four aspects

- Title - is the specific information complete?
- Tone - is it extreme, exaggerated or even provocative?
- Logic - is this information contrary to my common sense?
- The source of information - is the source of information reliable?
Is the key person closely related to the event itself?

- At the same time, we can also use some **tips** when searching for news:
- 1. Search instructions can be based more on keywords and less on questions, so the results are more objective.
- 2. Use the image anti-search function, comprehensively use different anti-search tools, and compare the search results.
