Visiting International Professional Program

ALUMNI REUNION | NANJING

In honor of the **35th Anniversary** of the Visiting International Professional Program, we invite you to a special half-day reunion in Nanjing this fall, bringing together VIPP alumni from near and far for an afternoon of connection, reflection, and forward-looking conversation. This gathering marks an especially meaningful occasion: the **official launch of the VIPP Club Spartan**, a new alumni network created to help VIPP graduates connect, support one another, and stay engaged with the MSU community long after graduation. Join this event to hear directly from **program director, Dr. Xinyu Wu**, on program developments and future steps, a **panel discussion** exploring how artificial intelligence is shaping research, industry, and education, and **special guests** from MSU!
